Havnsworth engaged him in conversation and recognized at once his stolen cuffs and dark silver buttons \$50 fine or six months in the Penitentiary. He gets a policeman as soon as possible and | Fine paid. five minutes later Andrew Johnson (the name given by the thief) was arrested at the house of A. D. Peters on Republican street. Besides the cuffs and buttons, the watch and The Sumter Hotel Company has called for the first installment of 20 per cent. of its capital stock.

Chain and Haynsworth's pocket knife were all found in his inside coat pocket. A preliminary hearing was immediately held by Trial Justice Wells and in default of bail he was at once committed to jail. This same negro admits now that he stole Maj. Haynsworth's gold watch out of his bed room several months ago, an account of which was published in the WATCHMAN AND SOUT HON at the time, and that he sold it to a party at Wedgefield for \$2.00.

One of Sumter's Sons.

ALEXANDRIA, LA., June 4, 1891. To the Editor of the W. & S.: DEAR SIR: I send you by this mail a copy of the Alexandria Times, our daily. We have two weeklies besides. Alexandria has only about 3,500 inhabitants, but has a first class street car system and many of the advantages | Tulane University of New Orleans last week

I have just read the pamphlet on Sumter issued by the Council of Sumter, and I feel proud of the steady growth of my native town. Alexandria shakes hands with Sumter in congratulation. Yours truly, C. H. MOISE.

of a city of much larger size.

Struck by Lightning.

During the severe thunder storm which 9 o'clock, lightning struck the house of Rev Mr. Ayers, on the corner of Republican and New Streets. Mr. Ayers was in his study talking to a friend while Mrs. Ayers was in her room is the second story. Suddenly there came a flash of lightning followed by a terrific real of thunder and Mr. Aver's visitor remarked that it must have struck the house, and at that moment in response to a call from ascertained that the lightning came down the chimney and crossed the room to the window opposite. Several bricks had been displaced but what was more wonderful than anything else was a small ball of fire that appeared to be floating around the window just opposite. It lasted for a few seconds and then disappeared. Mrs. Ayers felt the shock very sen-

was in progress, the lightning struck the North-east corner of the Sumter Jail, knocked off about 15 brick, split the lining board, and after scaling off a considerable amount of white wash ran down to the floor. All the prisoners maryelously escaped injury, only one of them having been slightly stunned by

In the Stateburg neighborhood in some places the storm of rain and hail was very heavy. It commeaced to hail about 20 minstones were nearly as large as guinea eggs In the same neighborhood, a cow belonging to Dr. W. W. Anderson, Jr., was killed by lightning in a stable in the yard near the house. The fowl house was also struck and a hen killed. One or two trees along the

road side were almost demolished. During the severe thunder storm which prevailed here last Thursday evening, the telegraph lines in front of Mr. T. C. Scaffe's store was struck by lightning. The telephone wire was completely cut into two

The Court. The Court of General Sessions convened Monday at 10 o'clock A. M., with Hon. Jas. F. Izlar presiding. This is his first judicial visit to Sumter, but he is already almost as much at home, as in Orangeburg. The Judge seems to be in the best health and improving. He begs to convey his sincere evidently from his remarks to the Grand to the business of the court. There will be no givil cases tried,

Clarendon, died at his residence in this city and therefore no Common Pleas Jurors were summoned to attend. The Grand Jury last Wednesday night after a lingering which acted at the last term, of course hold illness, from consumption, in the forty-sixth over for the remainder of the year, and the year of his age. Mr. Witherspoon was a names of the Sessions Juroes that have been drawn for this term, have already recently been published in the W. & S., Solicitor John S. Wilson was at his post and proceeded at once with the bills which he had ready to submit to the Grand Jury. His Honor charged the Grand Jury briefly but pointedly, remarking that he would not detain them for instruction as to their general duties, as he was satisfied they were already familiar with what was required of them. If there was any special matter he would call it to their attention during the term. That he had never thought it necessary to go over technical points with them at that stage, as such was calculated more to confuse than enlighten them. Unless it was a special case the widow of the late Hopson Pinckney, Jr., and a sister of Mr. T. E. Richardson of this reference to them. Criminal pleading was new so simple that there would be little difficulty in its being comprehended by them. After charging them in respect to certain matters of form. The Judge referred to the annoying delays and impediments to the progress of the court, which usually resulted lowed thence by many relatives and the friends of her childhood who holding in refriends of her childhood who holding in rein court and immediately within reach. The Judge said you are here to perform a high and important duty and are officers of the Court. The places of lawyers, jurors and witnesses is in the Court House, and I expect them to be here, so that the progress of the Court may be steady and successful. I wish all witnesses and jurors within the sound of my voice to take notice of this. You have a direct interest in it, and if you will co-About noon to-day Mr. John R. Keels operate with me, the business of the term will be transacted with celerity. Every The following cases have been tried and

SPECIAL PRESENTMENT OF THE GRAND JURY.

Yesterday afternoon during the progress of he trial of the case of the State vs. Henry Trescott, the Grand Jury came into the Court room and upon taking their seats, Foreman J. R. Phillips arose and stated that the Grand thanks to his friends and Captain and Mrs.

Jury intends that the county shan't be put to

Jury wished to make a special presentment
any unnecessary expense by the usual delays
to His Honor. The presentment is as follows: To the Honorable Jas. F. Izlar, Presiding

Judge: It having come to the hearing of the Grand Jury from sundry sources that John R. Keels has committed the crime of forgery by altering a certain promissory note, hereinafter described, with an intention to defraud the makers and endorsers thereof, we beg leave to report that we have summoned witnesses and examined the same in relation to the above and we find the charge against the said John R. Keels to be founded in proba-

We therefore present the said John R Keels for having violated Section 2527 of th General Statutes of this State, in changing, altering and falsely uttering at Sumter, in the County of Sumter and State of South Carolina, the following instrument, in writing, to

SUMTER, S. C., March 31, 1891.
On first day of December, 1891, after date, promise to pay to the order of John B. Keels without offset, negotiable and payable at the Simonds National Bank of Sumter, of Sumter, S. C., three hundred and nineteen dollars value received, with discount before and interest after maturity, at the rate of 8 per cent per annum until paid. (Signed.) A. F. COUSAR.

Upon the back of said instrument the followng names appear in the order given "M. Le Keels, D. A. Outlaw, John R. Keels, Horac. 3. Mitchell, John R. Keels, J. E. Stuckey.' That the said instrument has been altered by the said John R. Keels in the following par iculars to-wit: The figure (3) "three" fraudulently written in front of the figures 19 and after the dollar mark (\$) in the upper left hand corner of said instrument in writing.

That the words "three hundred and" were

body of said instrument in writing. That A. F. Cousar, Geo. McDuffie Barret, R. M. Wallace, Marion Moise, R. D. Lee & e material witnesses to prove the same. That said note is now in the custody of James D. Blanding who is also a material witness. vits moved the court to issue a rule against certificates in such cases. I have not looked The Grand Jury further present the said John R. Keels for that he the said John R. Keels did with intent to defraud the maker ing the trial of the criminal prosecutions is your duty to examine it as to its correct- South Carolina a certain promissory note altered the said note by writing the figure "2" in front of the figure five and altered the dollar mark (\$) in the upper left hand corner of said note or instrument of writing

> Keels and Heory Stuckey. That said note was originally for the sum of fifty dollars and stood for that amount at the time of the last indorsement thereon.

and by writing the words "two hundred"

and the figure "&" in front and to the left of

Therefore, the Grand Jury recommend that the Solicitor prepare a bill or bills of indictment against the said John R. Keels, embracing the charges herein preferred. J. RPHILLIPS,

June 9, 1891. Water, oh! Water!

It is possible for our city to loose sight of its real wants-just as possible for a city to do so as for a man A park, for instance, would be a very desirable acquisition. It should be made attractive and beautiful, and men can arrange for us to have it. But in oursuing this end, we must not forget that there is something else better than a park for rest and pleasure. I refer to a system of water supply. We can live without a park, our city is the fact that the water in many places is not good for drinking. True, each one will say that the water in his yard is good, and this may or may not be so. We generally learn easily to love what we are accustomed But we must remember that visitors from the country have to use the water that is

with it from our yard where we say it is so In the midst of a growing population, where the soil is soft and sandy, and where much filth and offel is daily accumulating, i is impossible for the water supply to remain pure for any length of time. The hungry earth drinks up everything, and is not choice or select. Now, and then, when disease afflicts certain localities, diligent search is made to ascertain the trouble, and the surface of the earth is searched in order to find the seat of the trouble. Probably if we were to go deeper, we might discover the real cause of the grief. In such a soft soil, no one knows how deep the infectious poisoning may sink. The scientific men, who are supposed to know, say that more persons die from what they drink than from what they eat. This being the case, we can never have a perfect system of sanitation until we

have water from a pure and uncontaminated source, and having no mountain springs around us, our only recourse is to the artesian A water supply will admit of a sewerage system. If we had the sewerage, our wells and pumps as now used might be sufficient his time from the dairy business to his chosen | The filth being carried away would not poison the source of the present supply. But we ness. For that purpose he has re-opened in the | cannot have the sewerage without the water. On each side of the city are streams that could be utilized in carrying off the drainage, if pipes, cleansed by running water, were put down. These streams which so readily gen-

erate fever can be made the means of carrying Carolina towns have set us a worthy example and have plainly shown us that it is possible to draw from the earth at our feet all the water that we can reasonably need. Barnall have artesian wells. A physician o excellent standing in Darlington says that the health of that town has improved forty per

cent, since the citizens began the use of the artesian water. I think we may safely say that our people will not object to the expense incurred in digging the wells. Of course, there are a few croakers who groan whenever a dollar is extracted from their pockets. I heard of a man, once upon a time, who dreaded to die principally because he knew a decent coffin would cost his estate \$20. We may have a few of that greedy, grasping sort; but the heart and brains of the community will sustain the action of our aldermen if a sys tem of waterworks is provided, and no one will censure them, let the contract be what it may. Communities rise in arms sometimes when they know that their money is going into the copious pockets of greedy and soulless tricksters; but our city fathers are thoroughly trusted by us all, and we are willing to confide even further in them. A new life and energy will possess us all, on the day we see voters, the FIRST MONDAY in every mouth the work begun whereby we are to get pure

I am informed that a contract has been made with a firm in the North to dig wells: but the statement has also reached me that it is as probable that the contract will not be complied with. This being the case, it seems to me clear that our arrangements should be made at once, and the work begun at as early a day as possible. There are persons we cannot make such a bargain as we desire, we should then make the best that we can,
